First name: Gretchen

Last name: Bishop

Organization:

Title:

Comments: I am writing to oppose the expansion of the Kensington mine. I enjoy Berger's Bay by kayak and skiff and am not confident that the huge tailings pond will be securely maintained once the mine is closed. As a retired marine fisheries biologist this concerns me as a broken dam would empty into Lynn Canal, home to abundant fish and shellfish species utilized by subsistence, sport, and commercial harvesters.

Sincerely,

Gretchen Bishop
