Comments: As someone who used to be part of activities at the church of Christ camp up on Mount Graham, I feel that I need to express how important this camp has been to many young people. Their experience is on the mountains have made them to be better individuals, better citizens, better friends. The settings of the Majesty of Mount Graham tend to get us to look at the world differently. We are made aware of the beauties of nature, and we were able to see the wonderful things there. We are taught respect for the land, and a respect for the animals that are running or flying or crawling around. The ability to continue to use this land is so important. It is made an impact on my life, and hopefully will continue to make an impact on the lives of young people and adults from many years.

I have forged friendships there on the mountain that have lasted for many years. I would hope that many others would be able to have this opportunity because of the renewing of this permit. Thank you.
