Comments: Don't throw effort into foolishness. Not knowing what is to become of our tourist industry in Juneau, these and many other plans should be put on hold. Don't waste time and money when we may have minimal numbers of visitors for several years. I also totally disagree with creating a dock/info/visitor center out near the glacier. Guess what it's a receding glacier and if you can't see it, it's because it's a RECEDING glacier!

Not everything in Juneau has to be for the tourists! Remember people live here and don't always want more buildings, boats, tour operators, etc. I think this year many locals have enjoyed so much more of Juneau because WE HAVE HAD NO TOURISTS! I think many people are realizing how nice Juneau is without a million extra people here
