Title:

Comments: I would like to express my support for this scoping process and the proposed action to construct two new realigned road segments around private property and reestablishing valuable public access to the national forest road system and the public lands beyond.

I very much appreciate the efforts of the Sierra Vista Ranger District and the Coronado National Forest in advancing this proposal to restore motorized access to the existing road system.

Please keep me on your distribution list as this process and the subsequent EA unfolds.

Thanks - Brian Dolan
