Comments: Why isn't 36 CFR 210 mentioned in the beginning? It is the one thing we always used when I was the SPL Ranger. My predecessor started the extensive use of it out on the Rampart. If an area is in violation of this federal law, it is the first thing you use! It isn't even mentioned until the list of Desired Conditions. Should be emphasized from the beginning, When I was Ranger we had already "shut down" most of the district just using this law. Just seems to me this law should be discussed right at the beginning.

We also had a great shooting are near Shawnee. It was the near one on the Forest. However, one day someone was out there early in the morning shooting something very large. A district employee who lived near there quickly got dressed to drive over there to see what was going on. By the time he got there who ever it was was gone. He knew his guns and went so far as to say he thought it was someone illegal. Well The North Fork Dude Ranch, didn't like that their guests were disturbed that one day and they raised such a stink we were forced to close it. A lot of partnerships and their money went into the development of that site.
