Comments: STOP STOP STOP

Three docks, to many. I heard electric boats and now gas engine boats. What about noise, fuel spills, trash.. This beautiful area is already crowded in the Summer. Locals cannot enjoy this area with the volume of tourists. This area will be ruined just like Yosemite and Yellowstone. This past summer was the best ever. What about locals being able to enjoy this area. How much development is too much! One cabin would be ok. I can't enjoy even hiking with my dog on West Glacier in summer or any areas near where I live. I lived here in 1980 and recently moved back, the change with tourist taking over this entire area is so sad. Have anyone ever heard of Limiting the amount of tourists.
