Comments: 1) I am fully onboard with developed shooting ranges being implemented. 2) I am fully against any designation or expansion of "no shoot" zones/areas in any way shape or form. 3) I am fully onboard with exponentially increasing fines / punishment for unsafe shooters, garbage shooters, idiotic behavior relating to firearms use on any public lands. 4) I am fully against the govt saying that they know better than me as to where I can shoot. I am a public land owner and disavow any attempt to infringe upon my access and activities on said land unless my actions dictate otherwise.
