Comments: I am an avid quail hunter and member of the southern AZQuail forever chapter.
I am familiar with nearly all of meadow valley..
I support the effort to provide access to all of the valley.
However, I think the plan is incomplete ! In the cott tank block the road to the south (4696 ?) could be blocked causing the loss of a large portion of the valley.. has or will that issue be addressed in this project? I hunt that area often and it is valuable wildlife habitat that I would hate to loose
Will you please respond to this potential problem
Max johnson
