Comments: Thank you for the opportunity to comment. It's apparent that a lot of work went into this plan. However, it is a nightmare in my opinion. I appreciate the letter from the EPA. Meeting their requirements will hopefully thwart this basically bad plan. Imagining 3 boat docks on Mendenhall lake is incomprehensible, as is filling in a pond currently home to scores of wildlife to allow for more parking! My objections are numerous, but suffice it to say this is an environmentally unsound plan that is only good for those in the tourist industry who will benefit financially.
