Comments: I am extreme concerned about the proposed Mendenhall Glacier project. It would destroy the views and the experience of being in and around the entire Glacier region with commercial boats on the lake and the filling in of the lake near steep creek. The East and West Glacier trails provides important ways to experience the environment, and the Steep Creek area is a safe way to experience bears. It's not necessary to block views of the lake or provide traffic on the lake. We need more time to see the plans and comment.
