Comments: People shooting along Upper Gold Camp Road are destroying the mountainsides in that region. Not only are they shooting along Upper Gold Camp Road but if you travel back on 381 or 379 there are entire hillsides that have had the trees obliterated. Trash and shell casings are just discarded with little clean up. And in some cases it looks like old TVs or other appliances were hauled there only to be shot up.

Another particular concern is the safety of hikers, dirt bikers, and mountain bikes in that area. It is not uncommon to be riding a dirt bike in that area only to come upon someone just out there shooting in what appears to be very unsafe manner and area.

Finally, I have concerns about the safety of the shooters themselves. I have seen entire families with small children running around the shooting area (among the adults who are shooting), dogs running free while people are shooting, Definitely not activities or practices that would be tolerated at a shooting range.
