Last name: Morado

Organization: Idaho Forest Owners Assoc.

Title: President

Comments: I greatly appreciate the information presented at the recent Zoom meeting concerning the Scattered Lands Project. It is a worthwhile project that focuses on a major concern for forest landowners. I was somewhat surprised to discover that the area of Horn Mtn was dropped from the initial review, but understand the reason. My question now is what needs to be done to request reconsideration. Is it best for each surrounding landowner to voice their opinion via letter or would a community meeting and visit by a Scattered Lands forester start the ball rolling for reconsideration?? I would appreciate guidance and/or advice.

Thanks,

Frank
