Title:

Comments: i applaud your efforts in fuel reduction in this area, and strongly support the thinning that you are proposing, everywhere. i prefer alternative 1 to 2, but either would be an improvement over nothing.

As to the road decommissioning, i am an active mountain biker and hiker in the area. there are a couple of heavily used roads that i would like to see excluded from your plan:

6202000-3.781T; 6202113-0.28L-1; and 6122912. i support a gate or road barrier to keep out vehicles, or ATV's but please do not exclude hikers, and bikers. or decommsion the road to the point of no passage.

Thank you for your efforts, it is clear a lot of work has gone into it, thank you for helping to protect this beautiful area.
