Comments: The public need an area to shoot responsibly.. The condition of Turkey Tracks facility is a testament to the irresponsibility of a few. I would suggest a user fee of \$10.00 similar to the fees charges in certain state and national parks. Furthermore, the facility should have an employee who would check cars in and assign them to a shooting area. All shooting areas would be designated by numbers.

The User fees would be used to pay the gate attendant and for the cost of cleaning up those areas left by the irresponsible shooters.
