Title:

Comments: I enjoy and participate in all of the activities our local National Forest has to offer (Hiking, mountain biking, off-roading, shooting) so i can relate to the multiple viewpoints on this topic. I fully support a managed approach and designated shooting areas. The haphazard and irresponsible manner in which many people shoot and fail to clean up is unsafe and unacceptable. I suggest a fee (similar to a campsite fee) be imposed and made payable upon arrival at a designated shooting area. The fees collected could be used for any necessary receptacles, cleanup and maintenance of the shooting sites.
