Comments: I used to love camping in the free, dispersed areas near Turkey Rocks to climb. Now, I feel like the area is no longer used by quiet campers, but people who want to party. Shooting comes with that. I am not comfortable with the type of shooting going on. If people are leaving trash and shooting trees, I cannot trust they are responsible enough to have a backdrop. I used to enjoy target shooting I. The woods myself, but there are too many users these days for it to be safe. I support creating shooting ranges and banning it in the woods.
