Comments: I have been hiking, running or biking off Mt Herman Rd since 1978 and usually felt safe. However, with the population growth, popularity of the area and people who think it's safe to target practice anywhere in the Natl Forest, I worry whenever I hear a gun. A lot of them have no idea how close trails are to the road. And then there is the damage to the forest itself. I helped clean up places where trees had been mowed down.

Please designate target areas far from trails. Thank you. Barbara Roberts
