Title:

Comments: I've been in Colorado for almost 30 years, I'm a member of a local gun club, and I'm an avid climber/hiker/mountain biker. I support the construction of these ranges. Unfortunately, it seems some people can't be responsible enough to maintain the forests and limit their impact, so just like having a designated trail or area for climbing, hiking, or mountain biking, we should have designated areas for shooting. I would be interested in volunteering some of my time to help the construction of these ranges.
