Comments: I live in westcreek. I don't mind the noise but what I do mind are the rounds impacting my house and my neighbors house. There is no way in hell and I'm telling you this as a Marine and Range Safety officer that turkey traks in anyway is compliant with Range safety protocols. There is no flag or anything signifying anything as hot. There are no range personnel. There is no safety whatsoever. You might want to look up what x,y, and z represent when building a range. Limits on what can be shot in what lanes etc. As a member of the MCVFD I have been on several fires in turkey traks shooting area and had rounds flying by me as I fight the fire due to a complete lack of law enforcement from both Douglas County and the forest service. Next rounds that fly by me I'm sending rounds back at them. I don't miss.
