Comments: Hello,

Please do not close NFSR 141 or 143 along with others in the area of Tarryall Reservoir for shooting in the area. My family for a long time has shot in the area and have always respected all the rules. With the easy access and great location I have been able to teach the younger generation the sport of shooting. Shooting is also a huge part of hunting which we seem to lose more and more hunters every year being they just have not been introduced to the sport. Shooting at a range is not only a pain it just is not any fun.

Thank you for your time.
