Comments: I was a listener of the online group Thursday, Feb. 4. I support the proposed shooting ranges along with exclusion zones within Pike Forest. Incident: last summer (possibly early July) during the red-flag fire restrictions and shooting ban, I called Park County Sheriff's office about nearby target shooting. This was near private vacation cabins on County Rd. 64, Bailey, just beyond Happy Top. I assume the shooters were in the old "city dump" area, a common location for shooting. As I was speaking to the dispatcher the shots could be heard. I also noted that I could hear the voices of the shooters. Shooting lasted around 45 minutes to an hour. I assume the deputy made contact with the individuals after my call. Two forest fires have occurred (Shawnee Mountain and Payne Gulch special use) in this vicinity in the past 2 years.
