Title:

Comments: I am a permit holder in the Crystola Summer Home Group, within Pike National Forest. I oppose target shooting or shooting ranges in or anywhere near the summer home group. I am not opposed to gun ownership or the right to carry. I am not concerned about the threat of errant bullets, (although those things do happen). I am very concerned about gunshot noise and traffic. Our Summer home is a place of escape, where we enjoy serenity and quiet. We enjoy the sounds of the forest and wildlife. We enjoy the privacy of our area and knowing when our neighbors come and go from their homes. Sound travels a long way in the canyon. Many years ago, motorbikes were common in the canyon. Dirt bike motors droned on daily, from dawn until dusk. It was very disruptive. I would not want to hear gunfire daily as I tried to enjoy my home. I also feel that allowing shooting would harm the resale value of my home, as it would eliminate potential buyers who did not want to live near a shooting range. Please do not allow shooting in or near the Crystola Summer Home Group.
