First name: Linda

Last name: Dewey

Organization:

Title:

Comments: Last night it was 20 degrees out as I sat on the couch trying to read a book while being bombarded by the sound of gunfire from 8-9pm. This morning I woke up to gunfire. It continued LOUDLY while I took the dog for a walk. I'm listening to rapid gunfire most days and often ALL day. I hope the USFS is listening to me and other residents. This can't continue. Please don't choose recreational shooting over mental health.

If you do listen, and develop a plan that extinguishes fires, safety concerns and noise pollution, what will happen in the interim? Will you close Turkey Tracks down until it can be engineered and supervised or will it continue to be a hazard that plagues local residents until construction begins.

I'm begging here. Make it stop!

Linda Dewey
