Comments: I would like to see more effort spent to keep this area open and continue to build additional ranges. I do not understand the reasoning behind shutting down recreational shooting across forest service land when these "bad actors" who trash the land will continue to act in the same manner. Even if shooting is limited or restricted, it will continue to happen. These rules are only affecting myself and the responsible community who loves to spend their time in the forest and putting in their time keeping it clean. Why prevent those who help clean the forests from even stepping foot in the forest again since what they love to do there will no longer be allowed. Please think about this....if you restrict public land/forest land shooting here and implement a fine to restrict this activity, why dont you just put in place a fine for those that trash the land? AND ENFORCE IT! If this cannot be done successfully, neither can a public land shooting fine. One of these should always be attempted prior to the other.
