First name: Mark

Last name: DeMeritt

Organization:

Title:

Comments: My wife and I are full-time residents in the Kahler Glen golf coarse resort. To access our home we drive through Forest Service property that is in a very dangerous condition as far as wildfire. I could not tell from the map if our access/egress is included in the area to be addressed.

There can be up to perhaps as many as 300 people here on a weekend, should this area become blocked the only other exit is 5 mile of dirt road thru woods, not a good option. If one of the stated goals is to protect lives and property this area should be one of the first in line.

There are currently 11 standing dead trees that if they were to fall across the road would block it. The fuels on the ground are extensive stemming form the ice event several years ago.

Please know I am in full support of your plan, Thank you Mark.
