Comments: I am a Colorado resident with a cabin near Deckers, CO. When our family of 4 goes to spend time in nature and the shots are echoing throughout the valley. It creates a disturbance and fear that is hard to explain to my young children. I humbly request limitations or changes be made to allow more people to enjoy the mountains. A single shooter upsets the peace for hundreds of others sharing the same mountains valleys over. Thanks for hearing our voices, and doing what you can to support the harmony of all of us.
