Comments: Shooting in the national forest has been nothing but a nuisance for a long time. I support anything that reduces their impact on the environment and can help enforcement. Shooting sites in the forest are terrible, and unless this area wants the same fate as Old Stage Road and that area outside of Colorado Springs, something should be done now.

I would personally like to see NO shooting in the forest at all. As a recreationist, it's very difficult to hear that in the woods and makes me concerned for the safety of me and mine.

If this site eliminates ALL shooting in the district, then I support fully.
