Comments: Greetings, I am reading the Oregonian and seeing that the GovernmentCamp/Cooper Spur exchange has hit another roadblock. The undervaluing of the land in Government Camp and the continued potential for more development on the Cooper Spur side are not what we have been hoping for these many years. Please reassess the valuations on issues like using housing in Salem and Camas as comparisons to the recreational development potential at GC. Please look to limit future development at Cooper Spur.

We are still not in the ball park.
