Comments: Dear Sir/Madam,

I have been a Hood River resident for more than 20 years and I've been paying attention to your maneuvers with Mount Hood Meadows during the entire time. I must say that as a member of the public, I'm disappointed in the way that you have approached this situation and have failed to protect the north side of Mount Hood as was originally planned. Giving MountHood Meadows the opportunity to develop a pristine wilderness in exchange for what appears to be a miniscule amount of payment amounts to nothing more than pandering to the interests of a private entity. If we cannot have representation as we would like it in our society why bother? Please take my comments seriously and remedy this situation immediately!
