Last name: Fleischer

Organization:

Title:

Comments: Closure and ranges must be simultaneous - close forest lands at the same time that public ranges are opened. No closure of forest and then a vague promise to build a range.

Involve the public in maintaining the ranges - look at Chaffee County range as a model.

Current closures are arbitrary - top down. Involve the public. Those are our lands.

As is often the case with arbitrary orders, compliance has been poor. Involve the shooting public.
