Comments: The mountain is always torn when it comes to progress. We love having our fun but we hate having the mountains trashed & over run with "outsiders". I'm all for it as long as litter is addressed. It's really the biggest problem, besides not putting out camp fires properly. Everyone loves to visit but no one likes to clean up. Locals have so much love & pride up here but we get exhausted constantly cleaning up after the city when they come up to party. Terrible house guests on weekends, big snow dumps, long weekends & balloon fiesta.
