Comments: We want to voice our vehement objection to this newly contrived land 'exchange' between Mt. Hood Meadows and Government Camp! We just can't believe this most recent 'arrangement' between the USFS and Meadows. We thought back in 2009 that the north side of Mt. Hood would remain 'wild and free,' as indicated in everything we were reading at that time.

This is terrible. First Meadows tried to push through a parking lot/shuttle in our community of Mt. Hood where Cooper Spur Rd. turns off towards Parkdale. We managed to put a halt to that, but NOT, as written by Meadows in the Hood River News, due to Meadows' beneficence and community good will, but because ODOT finally put a stop to it.

The Drake family and Meadows tribe have pushed their way around for decades. This is yet another example of their greed and bullying. When will they have 'enough' of whatever? Evidently not yet!

We want the north side of Mt. Hood left alone; we enjoy visiting Cooper Spur, Tilly Jane, Cloud Cap, the GuardStation and all the other wonderful historical remnants of bygone days. We do NOT want, or need, more resort/condos/houses (none 'affordable housing,' that's for sure)/paved roads/ traffic, etc. here, taking out more forest, wildlife, clean water, and quiet beauty.

This is criminal. Stop it now.
