Comments: Please close down this nightmare!, I live 1 mile away from this trash pit . As a Colorado native I have never seen such disregard for a State forest in my life. The trash and debris left by these people is disgusting.

I have had to call the Douglas county Sheriff on multiple occasions because the range was closed so people would come down to Trout creek rd. and hwy 67 to shoot next to my cabin with no regard to my or my familys safety .I have personally ran off more than 3 people in the last 6 months who think its appropriate to pull over and shoot any where they want .( I am pro 2cnd amendment ) but find it hard to believe the utter lack of respect to the community up here near Westcreek ( SDame goes for the ATV's that come on weekends and leave their trash ) Until the Forest Services agrees to man the range and charge fee's I think it is best for all concerned to close it down, We already had one death a few years ago from stray bullet , Are we gonna wait for another before action is taken ?
