Message

I want register my strong disapproval of ending the roadless rule in the Tongass National Forest. Way too much prime forest has been cut & lost & the Tongass is one of last pristine forest left in US. ESP in this critical time for climate change The Tongass is essential! It is enough to make me want to chain myself to a tree; So, so , so Wrong!

Sincerely,
lisa crouse,
daughter of an Yale trained forester & hydrologist
