Comments: This lift upgrade is much needed at Arapahoe Basin. As a long-time Summit County resident and Arapahoe Basin skier, lines at the Lenawee lift can stack up since A-basin took down the Norway Chair, which operated on the weekend to relieve capacity on Lenawee. Lenawee is often the only chair to get to Montezuma, the Beavers, Lenawee Face, Cornice Run, etc. I support a high speed, detachable chair here for safety reasons too. This is a very long, cold lift ride. Having a detachable quad here would speed up this windy, cold chair ride.
