Title:

Comments: I am opposed to any type of shooting at Turkey Tracks.

It is located way too close to Woodland Park and surrounding neighborhoods where thousands of people live. There have been so many fires already, they have to be numbered! Even with official rules and oversight, the risk of a catastrophic fire and associated death and destruction is just too high. Have we survived the fires of the past just to invite another one into town?

I believe that Turkey Tracks should be closed to all types of shooting immediately.

Thank you.

Donna Knox
