Comments: I didn't buy property in the mountains to listen to guns day and night! Put Turkey Tracks in your backyard and see how you like it. What's your definition of tolerance? There USED to be a sign on Hwy 67 that read, "Welcome to Douglas County Where Quality of Life Comes First". We have lost so much because of Turkey Tracks ... that area used to be beautiful and peaceful with lots of wildlife and the many blessings that Mother Nature gives us. I pray every night that Turkey Tracks will be shut down so that all of us who live and play in this area can have our Quality of Life back. With 1.1 million acres available, PLEASE DO THE RIGHT THING AND SHUT TURKEY TRACKS DOWN! Find another location that doesn't ruin all of the wonderful things that we, as homeowners, deserve to enjoy. No part of a shooting range in my backyard is quality ... noise, fires, trash, shooting across the highway, machine guns, destruction of trees, putting our firefighters' lives at risk every time a fire breaks out. By the way, who pays to have those fires extinguished? I've witnessed a helicopter drop 22 buckets of water from Rainbow Lake to gain control of one of the fires. It's a drain on all of our resources when they could be better utilized elsewhere. I'm sick of it ... SHUT TURKEY TRACKS DOWN. PLEASE!!!
