Comments: Having a home on Bluestem Way west of Fairplay it appears that your map showing damaged areas west and southwest of Bluestem is mistaken or very overstated. I have not seen shooting damage in these areas and I explore them often. Twenty-five years ago there was an informal range set up by South Park Veterans but it is long gone and almost impossible to find now. To me this error makes the other areas that you now want to make off limits questionable. In light of these errors the other locations shown as damaged and thus to be closed should be reviewed.
