Comments: I would like to object to this proposal as it will only make law abiding citizens, the ones who do not destroy the environment, criminals by limiting access to our national forests for a favored pass-time. How will this be policed, if you cannot police the illegal activity now? I feel a few arrests and large fines for the illegal activity shown in the proposal: trashing the area, dumping, shooting of live trees, not cleaning up after the activity, would go a long way in reducing it. This can be curtailed with the laws already on the books without further limiting activity in OUR national forests.

The "few" ranges proposed will not be near enough to accommodate the large numbers of recreational shooters you say are in the forest and will provoke confrontations with exasperated recreationalists waiting "their turn."
