Comments: I have several safety concerns about expanding the shooting range at Turkey Tracks.

1. Unsafe shooting practices such as shooting up signs. Shooting across highway 67, and bullets going onto the ranch south and to neighboring West Creek garages. All of thing have and are being done.

2 the reckless attitude of leaving trash, used bullets scattered around the entire area. There is also no bathroom so people are just using the forest as a bathroom

3. Highway 67 already has way to many accidents around West Creek. Motorcycles are constantly crashing on the curves, a camper went off the road and over the guard rail recently. More tragic will exacerbate this problem.

4 Fire has been a huge problem at Turkey Tracks!

5 most important to me is the noise pollution. Every day all hours of the day they are shooting. At night as well! It echoes down the ball and sounds like they are in the backyard. Christmas morning they were shooting at sun up.
