Comments: this decision for your own assault on national lands as you do 99% of the time and ignore the usa citizenry is going on now. you must stop making decisions to assault our native lands. this is not careful at all. its the same old crooked criminal assault on nature that this usda does. the usda should never be in charge of our native lands. this agency is filled with farmers and farmes dont want nature at all - its the cmopletely wrong agency to have any say at all over native natural lands. this agency is about cutting down all nature and putting a farm on it. we see that withthe amazon dont we. this land needs to be taken away from the usda and put in a nature agency that is determined t keep nature becuase nature is keepign us alive. this continual assault on nature will kill us all. dont let all the farmers and their pal the hunters have this change. and the farmers are in fact robber baron cattle ranchers and nothing wild escapes their grip. look at how they are decimatnig the wild horses. please get after this and we need to take all natonal loand out from under the yoke of the usda. this cmometn is for the pubilc record please receipt.
