Comments: I believe the range is a needed and valuable asset for gun owners who want to be proficient in the use of their firearms. Both for personal protection and hunting sports. There are significant problems with this site that need to be addressed by all users/owners/residents. Closing it is the "easy way out". A working committee of all concerned, needs to be implemented in order to come to a good resolution. I agree with the concerns addressed in the news article. I don't think this is a Forest Service problem. Abusers need to be punished. I think a shooting range Task Force needs to be created so that problems can be addressed and shooting needs of the residents of the area can be met. I will volunteer to be on such a Task Force.
