Comments: I agree with the plan that there should be consideration for specific target shooting locations and the creation of shooting ranges. Riding my bike on old stage road is not fun and can be scary at times. The amount of trash is disgusting and takes away from the beauty of the wilderness. The sounds of the guns is scary not knowing exactly where they're coming from. If I knew there were enforced rules and designated areas I think I would feel safer enjoying that area.

Thank you for your work in keeping our recreational areas safe.
