Title:

Comments: A primary reason that I moved to this area is for the diversity of Mountain Biking and hiking amongst the mature Ponderosa Pines found in the Boggy Draw area. I support the modifications to the proposal by the SWCCA. Every year friends from all over the country convene in Dolores to experience the uniqueness of Boggy Draw and Phil's World. The proposed logging without modification and serious consideration of it's outdoor users would significantly change the experience for the worst and diminish a significant resource of the area. Please do not go forward with the logging without changes proposed by SWCCA

Thank you
