Comments: I recommend limiting the numbers of vehicles on the Geyser pass road. I would eliminate commercial businesses from doing shuttles. The forest should not develop the geyser pass road, because people will just drive faster. Instead prioritize local users, and then other people who can take care of themselves and do not need a babysitter.

There are too many people on this road and the umbers need to be limited. Get rid of commercial use. Us locals are tired of the tourism economy and we do not need this much to survive stop feeding the greed. Growth and development is unsustainable.
