Comments: I think the idea of a mountain coaster would be a really fun and unique experience for Albuquerque. Since we have a fun way to view the front side of the mountain I think it could be a great way to provide new views of the backside of the mountain. I think it could be a great opportunity to highlight stewardship in the Sandias. I believe, however, noise during the build and after needs to be taken into consideration for animal life as well as the potential for an increase in trash. Will Sandia Ski resort be responsible for picking up trash brought in by consumers?
