Comments: The family's and outdoor enthusiasts that I speak to about this mountain coaster all agree that the money spent would be better served solely on bike park expansion at Sandia Ski Area. I support having a coaster, only if its secondary to the bike park. More local folks will use the bike park than the coaster. When discussing with local mtb groups the agreement is universal. Return of investment is so much smaller for a coaster than moving dirt into tracks and jumps.

Thanks for your consideration.
