Comments: I think the Sandia Mountain Coaster is a wonderful way to bring year-round use to the recreational area, particularly for families with children. My husband and I come from the East Coast, where one of the nearby ski resorts in the Pocono Mountains, Camelback, had a mountain coaster.

(<https://www.camelbackresort.com/mountain-adventures/mountain-coaster/>) I have wonderful memories of family time spent there. Additionally, it will bring much-needed tax revenue from both the ride and concessions.
