Comments: Good evening,

I personally believe we should keep our public lands as wild as possible with access being for the purpose being for wild land uses. This project seems to not fit this viewpoint. A bastardization of a mountain top would be disgraceful to the beauty of the crest. The current facilities up there (Tram/Ski Area, Crest lodge, 10-3) aren't an eyesore, and this would be a huge scar to the Crest.

As a resident of NM, I do not support this project.
