Comments: Greetings,

I'm writing regarding the mountain coaster. I fully support this project. This will guarantee year round use of the facilities in the area. The project is accessible from both the the chair lift and the tram. The only time the coaster would not be usable is when there is a heavy snow and we know there are years when the ski resort doesn't open at all.

If you build this, tourists will come. I'm 69 and I plan on riding it along with lots of other locals. This can only be a good addition to the burgeoning entertainment options Albuquerque has to offer.

Sincerely,

Veronica
